Technical sheet written by the domaine :

Terroir : Clay-limestone, tuffs, mid-slope of the hillside. Located on the middle part of the Turonian,

clay cover of variable thickness (50cm to 1 meter), rich in micaceous chalk particles. Cabernet franc averaging 25 to 60 years, exposed to the southwest.

Whether from our cuvées from specific parcels or from special cuvées, our Bourgueils are as pure as our cabernets, deep as our cellars, and always delightful in their youth.

The cuvées from specific parcels: the reflection of a terroir

Although it is a single entity, our domaine has multiple geological identities. For generations, observation has allowed us to translate these nuances into specific cuvées.
