Domaine Yvon Métras Moulin à Vent red 2024

WARNING: the capsule of this bottle is made of food-grade wax. To open it under the best conditions, push your corkscrew directly through the wax, and once it is well embedded in the cork, pull sharply (without using the lever if you have a waiter's friend), in short, "the old-fashioned way." This is the best way to avoid "crumbs" in the bottle!

The wines of Jules Métras may be slightly reduced upon opening, we recommend letting them breathe for half an hour to an hour in the bottle or decanter.
