## **Technical sheet written by the domaine:**

**Origin:** a blend of plots located in the IGP "Collines Rhodaniennes" area. The name refers to the location of the vines next to the appellation area.

**Terroirs:** Granitic and alluvial

**Grape variety:** syrah.

---

**Viticulture:** natural grass cover to combat erosion. Treatments minimized according to the weather, no insecticides to preserve biodiversity, few fertilizers and only organic. Control of vigor and yields, leaf thinning, green harvesting for better grape maturation. Debudding in spring.

**Vinification:** plot-based and traditional vinification. Minimal use of oenological products (indigenous yeasts). In the winery, sorting, crushing, and partial destemming. Maceration for 3 weeks in open vats.

**Aging:** 7 months, 50% in barrels and 50% in vats. Blending of different plots before bottling.

**Production:** approx. 90,000 bottles.

**Olfactory tasting:** pleasant and aromatic wine. Nose of red fruits.

**Taste tasting:** lovely fresh red fruits and delicate spices give a beautiful expression of syrah.

**Aging potential:** To be enjoyed young for fruity aromas (3 to 4 years).

**Pairing:** charcuterie or grilled meats (beef skewers).
